

Information Requested	Notes
Property Name	FINCA TOBELLA
Wine Name	FINCA TOBELLA NEGRE
Property Summary	<p>Company: Established in 2003 as a partnership between John Lipscomb and Nuria Tobella. Our goal is to produce small volumes of very high quality wines from low-yielding vines in the Priorat appellation which will be commercialized in the premium market.</p> <p>Vineyards and Winery: The company owns about 20 hectares (around 49 acres) of property all located in Gratallops. Of this, we currently have about 15 hectares (37 acres) planted with grapevines and olive trees. The vineyards are established on terraces at an altitude of about 310 meters (about 1000 feet) and slate (llicorella) soils. Several varieties of grapes were planted in 2004: Grenache, Carignane, Cabernet Sauvignon and Syrah for red varieties and White Grenache and Viognier for white varieties. This finca was our first acquisition and came with some very old vines of Grenache and Carignane. Later in both 2006 and 2007 other properties immediately next to the original were planted with more Grenache, Carignane, Syrah, and Cabernet Sauvignon. Finally in spring of 2009 a property was planted with White Grenache.</p> <p>We vinify the grapes from our older vines. The wine is made in a winery in Gratallops, at less than 2 km. from the vineyards.</p> <p>Wines: Our wines: Finca Tobella Selecció Especial and Finca Tobella Negre express the tipicity of Priorat, reflecting their unique slate soils, called llicorella, in an elegant style but keeping all the mineral features provided by this terroir. Our philosophy is to keep production rather small to maintain the style and unique character of the local varieties used in the blend. ☐</p>
Wine Name	Tobella is our family name.
Significance	
Appellation	D.O.Q. PRIORAT
Varieties / percentages	44% CAB. SAUVIGNON, 31% SYRAH, 15% CARIGNANE, 10% GRENACHE
Vineyards	15 HAS.
Farming Practice (Organic, Sustainable, Biodynamic, etc)	Sustainable farming practices
Age of Vines	Younger vines: 5 to 10 years old.
Yields/ha.	3000-4000 kg/ha
Soils	SLATE
Altitude	310 M
Aging	40% of the wine is aged 6 months in French oak
Label Image	
Bottle picture	
Total production in cases	380 cases (9Lt)
US Retail Price	N/A
